

Dear Merchant Partner,

You might be already aware, that according to the legislation of the Government Decree 784/2021. (XII.24.) in connection with the Széchenyi Leisure card acceptance, it must be supported for the merchant to select another pocket with available funds for initiating the payment transaction, different from the defined pocket in the Széchenyi Leisure card contract for the original activity has been prolonged until 31 December 2022.

Please be informed, that still no further action is needed towards UniCredit Bank in order to be able to use the POS terminal with the possibility granted by the Government Decree. On the POS terminals deployed by UniCredit Bank all the three pockets are available currently, so you can initiate the transaction for the available funds by selecting the appropriate pocket.
