

The process of connecting to a new vPOS platform

If you would continue to operate your online store on our new platform to benefit from wider range of functionality, please follow the below steps:

- 1 Please contact the ecommerce support team at HU.ecomm@nexigroup.com address and notify them of your intention to migrate, indicating the web store(s) identifier (IFxxxxxx).
- 2 We will send our letter containing the necessary instructions regarding integration to the developer e-mail address registered in our systems.
- 3 According to the instruction the integration have to be done and then the result of the relevant test cases have to be sent to the e-mail address: HU.ecomm@nexigroup.com After validating the test cases, the ecommerce support team sends the live version key and after importing this the live operation can begin.
- 4

The developer knowledge database is available at the link below, where you can find and download the most popular plugins (Woocommerce, Prestashop, Opencart, Magento), as well as the developer aid for Redirect integration:

[vpos-integration \(nexicentraleurope.com\)](https://www.nexicentraleurope.com/vpos-integration)

In case of necessary, please update the logo for new accepted payment methods!

Download ApplePay logo: [here](#)
Download GooglePay logo: [here](#)
Download the logos of international card companies [here](#)

In case of any technical questions, please feel free to contact the ecommerce support team at HU.ecomm@nexigroup.com
